

### New Highway Brings Changes

Opening July 2 of the new pavement, which relocates US-27 along the west side of Houghton and Higgins lakes, has necessitated a change in highway numbers in that area, Highway Commissioner Charles M. Ziegler announced. The new route reduces the distance traveled on this heavily-traveled middle-of-the-state route from the Indiana line to the Straits of Mackinac by 12.1 miles and will save motorists a half hour or more travel time by avoiding traffic congestion in the resort area along the southern and eastern sides of Houghton Lake.

The old US-27 route on the east side of the two lakes from Prudenville to Roscommon is now designated M-18. This highway formerly extended from US-10 to Prudenville. The former US-27 from Roscommon northwest is now designated M-76 from Roscommon to the point where it joins the new US-27 route south of Grayling.

The trunkline along the south side of Houghton Lake formerly designated US-27 and M-55 is now M-55 only. New highway markers and large directional signs have been installed by the State Highway Department.

The new section of US-27 west of the two lakes was started July 31, 1946, and is 18.477 miles long. It cost \$1,515,640.

Motorists using the new pavement are warned to avoid driving on the shoulders of the highway as they are soft along the north half of the new roadway. Warning signs have been installed.

### To Start New Series Of Clinics

Many children are still unprotected against diphtheria and whooping cough. Whooping cough is one of the leading causes of death in children under two years of age in Michigan. Diphtheria still strikes with the same intensity as before in unprotected children.

A new series of clinics will be started in July by the Health Department staff for starting immunizations on all children 6 months of age or over who haven't received these immunizations from their family doctor. Three doses of this combined vaccine, one month apart, are necessary for protection. The first of these clinics will be held at the Frederic school on July 14 at 1 P. M. and at the health department office in the Court House in Grayling on July 14, at 3 P. M.

### Develop New Type Bus

The Scenicruiser, a revolutionary type of motor bus which will set standards of luxury in highway travel never before realized, began test runs in Chicago recently for the Greyhound Lines.

In designing the sleek 43-passenger coach, Greyhound engineers have achieved immensely greater visibility, smoother riding and more seating comfort than has ever been enjoyed by highway bus passengers.

One of the most striking innovations in the design of the bus is that the passengers in the rear compartment are seated in a raised dome with a wide windshield curved around the entire forward section to give an unobstructed view of the road ahead.

Three easy steps lead from the attractively styled 10-passenger forward deck of the Scenicruiser to the handsomely-appointed 33-passenger rear level covered by broad rooflights of special safety glass, permitting a sky view.

Safety In  
Canning Urged

This is the time of year when many home accidents occur, especially accidents during the canning process. The seriousness of the situation could be lessened if homemakers would avoid chances. Oven canning is the most dangerous of all types says Virginia Vance, Home Demonstration Agent. This method of canning is quite uncertain even when the oven has a heat regulator. It's unpredictable because the rate of heat transfer is slower in dry heat than in the boiling water bath. Experiments have shown that jars in different positions in the oven heat at varying rates of speed.

Above all, the liquid in the jars boils so rapidly that if jars are filled too full, if tops are closed too tightly, or if the escape of steam is prevented by the boiling liquid, too much pressure is built up in the jars and breakage often in the form of an explosion results. Severe accidents have been reported from all parts of the country. Don't you add another one. If you do can in the oven without breakage, you are lucky. Sooner or later you will have trouble. It's much wiser to use the boiling water bath method for fruits and tomatoes and the pressure cooker method for vegetables. Keep the oven for baking and roasting, not for canning.

## "How To Lose a War"

In a late issue of U. S. News and World Report, David Lawrence has a long editorial on the national defense. Its alarming—and accurate—title is "How To Lose a War." It deals, in large part, with our present tendency to put all our eggs in the Air Force basket, on the theory that big bombers carrying the A-bomb and other advanced weapons can decide a war by themselves.

That theory was held by some during the last war, and it was proved wrong. If we should adopt it and it should prove wrong once more—as everyone except Air Force partisans think it will—this country could be placed in a desperate, and perhaps impossible position.

Mr. Lawrence chooses as an example the decision of the Secretary of Defense to abandon the construction of a very large aircraft carrier by the Navy, though this ship which he says would be unsinkable, had twice been approved by Congress and the President. Then he says: "It isn't merely the desire of the Navy to build a particular type of ship that is the heart of the controversy. The basic principle at issue is whether the Navy can run the Navy and the Air Force can run the Air Force and the Army can run the Army." Modern naval experts are convinced that in a future war the carrier, which would give us mobile bases throughout the world, would be the principal offensive weapon. The Air Force zealots are telling the Navy what direction its development shall take, regardless of the views of the men who by experience and training are best able to judge what is wise and necessary.

On the solution of this issue, the life of the country may some day depend. And that is what gives the carrier controversy a significance infinitely greater than whether some ship or other is to be built.

## Good Buy—all around

FRIENDS gather, look over that long  
bonnet and wish they had as much  
Fireball life as you have here.

They size up the broad windshield and  
narrow corner posts—and don't have to be  
told how these things step up "see-power."

They appraise the smart styling, the  
roomy interiors, the usability of luggage  
space—and agree you've made a buy.

But don't stop, please, with letting them  
look. Invite them in and introduce them  
to some of the special pleasures you'll  
know as a Buick owner.

Show them, for instance, how completely  
different Dynaflo Drive† is, with every  
mile cushioned by flowing oil and none of  
the rigid harshness of direct-drive cars.

Let them sample the matchless Buick ride,  
with all four wheels cradled on soft, coil  
springs and low-pressure tires made still  
easier-riding by extra-wide rims.

†Standard on ROADMASTER, optional at extra cost on SUPER models.

Point out how solid this Buick feels. That's  
what you get from husky frames, low-swing  
weight, and power delivered through a  
torque-tube instead of the rear springs.

For the truth is, this Buick's a bargain on  
much, much more than you can see.

It's a big buy on the solid goodness a  
demonstration quickly makes plain. On  
increasingly favorable delivery dates. On  
attractive price. On the kind of "deal"  
your Buick dealer makes.

That's why we keep saying "Better see  
your Buick dealer—and get that order in  
promptly!"

## BUICK alone has all these features

Silk-smooth DYNAFLO DRIVE\* • FULL-VIEW VISION from enlarged

## PARTY CELEBRATES 15TH ANNIVERSARY

On the evening of June 28 "Verns on the AuSable" was the scene of a gala party when Mr. and Mrs. Hurl Deckrow celebrated their 15th wedding anniversary assisted by Mr. and Mrs. Norval Stephan, who were their attendants at the wedding.

Baskets and vases of roses and blue delphinium lent a note of beauty to the already festive scene in its pink and blue party dress.

Nearly a hundred guests signed the guest book.

Round and square dancing was enjoyed and at 11:30 the Anniversary Waltz called nearly every one to the dance floor. Then followed the grand march to the supper table, which was also in party dress of pink and blue.

The three-tiered anniversary cake centered the table, decorated with pink roses and inscribed "Hurl and Valma, 15th anniversary."

Flanked by crystal epergnettes filled with roses and blue tapers after the guests were seated Mrs. Norval Stephan cut and served the cake. This with ice cream was served by the Misses Helen, Toni and Patricia Stephan, Betty Jean Mathewson, Vivette Isenbauer, Mrs. Wellman Vallad poured, assisted by Miss Patricia Stephan.

While the guests were enjoying the refreshments Mrs. Floyd Taylor sang the same song she had so beautifully rendered at the wedding. The impressive "I Love You Truly" was immensely enjoyed. She was accompanied at the piano by Ben Garland of Roscommon.

After opening the many lovely gifts befitting the occasion, dancing was again resumed for a short time. Music was furnished by the "Polka Dots."

With wishes of many, many more happy years and more parties such as this, the guests bid good night to their happy host and hostess.

"It was a fact! The offer looked extra good. And when I stopped to think that used truck values were slipping, and that I might take quite a loss if I waited, I made up my mind on the spot.

"I'm tickled pink I did. Used truck values have slipped so fast in the last three months, I figure my quick thinking and fast action got me at least \$175 extra on a Ford Truck trade."
